Voluntary General Advisory Message

The Executive Board of Governors & Trustees of European Continental University (ECU), are known and accepted as the University of **Open Distance Learning Work Oriented Professional Vocational Knowledge**. This voluntary information is provided to every prospective applicant who wishes to obtain the ECU Knowledge Qualification. This advisory note must be read and understood very clearly before completing the application form and submitting to ECU. In accordance with the US Department of Education, the ECU Board of Trustees do hereby make it known to everyone that they are not a traditional academic university. Rather they are a Blended Distance Learning Work Oriented Professional Vocational Knowledge University. Everyone who seeks to enhance their Knowledge follow the traditional Academic University, but ECU facilitates the Non- Formal Vocational Knowledge Degree by considering Hands on Work Based Learning. The following statement was published by US Department of Education on their website about the private university concept of USA. We wish to state that this rule was in play at the time of ECU's incorporation and licensing in the State of Delaware, USA. This regulation is enforced by the US Department of Education. This is for information purposes only and the ECU's Trustees or Management will take no responsibility for any wrongful exploitation.

U.S. Department of Education
400 Maryland Avenue, SW
Washington, D.C. 20202
www.ed.gov

Accreditation in the United States is a voluntary process of external quality review used by higher education to scrutinize colleges, universities and programs for quality assurance and quality improvement. Higher education creates finances and otherwise sustains accreditation as a desired practice of self-regulation of its activities. Accreditation emerges from concerns to protect public health and safety and to serve the public interest. It is carried out by private, non-governmental, non-profit organizations designed for this specific purpose.

The United States has no Federal Ministry of Education or other centralized authority exercising single national control over postsecondary educational institutions in this country. The State of California assume varying degrees of control over education, but, in general, institutions of higher education are permitted to operate with considerable independence and autonomy. As a consequence, American educational institutions can vary widely in the character and quality of their programs.

The U.S. Department of Education states; accreditation does not provide automatic acceptance by an institution of credit earned at another institution, nor does it give assurance of acceptance of graduates by employers. Acceptance of students or graduates is always the prerogative of the receiving institution or employer. For these reasons, besides ascertaining the accredited status of a school or program, students should take additional measures to determine, prior to enrolment, whether their educational goals will be met through attendance at a particular institution. It is the responsibility of each student to determine, prior to registration at any university, that their degree program or studies, meet admission, employment, or transfer requirements.

ECU's Principal Beliefs

- ECU Facilitates Non-Academic Work Orientated Hands on Professional Entrepreneurial Vocational Knowledge Qualifications
- ECU is an Occupational Employment and Business Distance Learning Vocational Knowledge University
- ECU confers their awards upon matured licensed working individuals who demonstrate their eligibility for certification
- ECU's main accreditation has to come from Employers and Business Enterprises as it is an Entrepreneurial award
- ECU's Qualifications are Non-Academic but deliver extraordinary Professional Status in Business and Employment Circles
- ECU Qualifications are supported by UK-Commission for Consistent Learning (UK-CCL), who are known to be implementers of Professional Quality Management Standards (PQMS 5001:2005), which is equivalent to ISO 9001:2008!
- ECU awards are reinforced with Eminent Memberships from UK Professional Body, CEA to enhance the qualifications offered
- ECU believes in Leadership, Personal/Professional Development & Success rather than Academic Learning alone.
- ECU does not claim that they are University Grant Commission (UGC) approved, but rather are a Professional Knowledge University (PKU).
- ECU's awarding panel only considers the applicant, who has independently understood the vision, mission and concept of ECU's Legitimacy, Authority and Acceptance.

Words enable us to transfer our thoughts from inside our own mind into the mind of another. They have the power to alter history, to describe the past, and to bring meaning and substance to the present.

Jim Rohn

Who is ECU?

The European Continental University (ECU) wishes to be known as a Non-Formal Blended Distance Learning Knowledge University invested in certifying matured licensed working individuals based on their Knowledge of Ability and Capabilities through an Entrepreneurial Certification. ECU is dedicated to facilitating and promoting Work Experience Based Professional Knowledge Entrepreneurial Qualifications. All employers and business organisations accept the awards as a worthy and valid certification in the modern day. The Founders of ECU wish to emphasize that it does not offer any USA or UK Traditional Academic University Qualification. Rather it places the importance on licensed work knowledge learning by way of Hands on Experience & Work Learning. ECU is known and accepted as an International Non-Profit Work Based Open Knowledge University providing Distance Learning Entrepreneurial Work Based Professional Knowledge Degree Qualifications. ECU is committed to elevate every licenced working individual who can demonstrate his or her Knowledge, Experience & Life Learning, which could be converted into an International Professional Entrepreneurial Knowledge Degree Qualification.

ECU's vision was evolved from Ralph Thomas' two doctoral thesis on Professional Quality Management Standards and Work Orientated Learning and utilising the concept with the UK Professional Body Corporation of Executives and Administrators (CEA), which was incorporated in the year of 1981, as a Non-Profit Quasi Charity Professional Awarding Body. The CEA is offering Professional Diplomas and Memberships from their respective faculties and the mission at Incorporation was to make it as a private university one day by incorporating in their constitutional Memorandum of Article permits to create as many faculties they may deem necessary. This vision was enabled to formulate a legitimate Non-Academic University to be known as The European Continental University (ECU) during the period Ralph Thomas was the Executive Chairman & Trustee of CEA. To enhance this collaboration further and to strengthen professional quality standards, the ECU Board of Governors has given full authority to UK-Commission for Consistent Learning (UK-CCL) to perform as the Independent Assessing & Verification institution for all the ECU awards. This was considered due to the fact UK-CCL has the certification to confirm their Quality Management Standards are to ISO 9001:2015. Most International Business Organisations, Professional Institutions and Employers accept ISO's quality implementation, which ECU has under the supervision of UK-CCL. This has permitted the Governing Board of ECU to come to a firm conclusion to establish its International Administrative Office with Operational Management and Development to be handled and executed by UK-CCL in the United Kingdom. ECU enforces their dynamic Professional Knowledge Qualifications to UK-CCL's 5001:2005 Professional Quality Management Standards (PQMS 5001:2005) which further validates ECU qualifications internationally.

The ECU's Professional Knowledge Hands on Degree is a uniquely enhanced concept, focusing on offering the importance to practical hands on learning knowledge as it is highly appreciated in today's economic development. ECU's most valuable part is Oral Examinations, as it determines the candidate's ability and eligibility for the individual to earn the said professional knowledge qualification. The ECU offers its own Non-Academic American Professional Entrepreneurial Knowledge Degree awards in conjunction to the incorporation and licensing stipulation of the State Secretary of Delaware, USA under the Convention de La Haye du 5 October 1961 by the Secretary of State of Delaware with the registration Number 02254641 and Authentication number 3914155 dated 05-31-05. ECU Board of Governors wishes to state here that, ECU's Professional Entrepreneurial Knowledge Qualifications are awarded with the authorization of the State Secretary of Delaware to award its own Professional Entrepreneurial Knowledge and Work Orientated Degree Qualification pertaining to their Memorandum of Article at incorporation. ECU does not claim their applicants as students but rather as candidates as they admit only matured working individuals and they are assessed and verified by UK-CCL's ACPD or APEL Schemes.

The Executive Board of Governors wishes to emphasise to every individual that, ECU's Entrepreneurial Work Based Knowledge Qualification should be earned, rather than awarded. Every candidate must meet the assessment and verification criteria's and procedures along with attending several compulsory Viva Examinations to earn the unique ECU Knowledge Qualifications. ECU's founders belief is that, the accreditation of their qualification must have the approval of Employers, Business Societies & Organisations, not importantly of government institutions as the recipient of the award will be the quality of the qualification. Prof. Ralph's philosophy is to elevate and recognise the hands-on knowledge to academic level of qualifications. This offers every working individual to be an entrepreneur in their own right in their work place or business. ECU believes in the 'DUO Concept' and has formatted the university's structure in that specific manner. The ECU's Professional Entrepreneurial Knowledge Qualifications are considered via two sections, "Accreditation Academy" and "Affirmation Academy". The ECU awarding criteria is Professional and Entrepreneurial. The assessing methods are facilitated by "Accreditation of Prior Learning and Experience (APEL)" and "Affirmation of Career Progress Development (ACPD)". The awards are categorized as Work Researched and Professional Assignment schemes (APEL & ACPD). The Founder and Executive Governor General of European Continental University and UK Commission for Consistent Learning (UK-CCL) Prof. Ralph J Thomas conceived this specific philosophy by his two dedicated Doctoral thesis and implementing in year of 2005.

ECU's significance is to generate tomorrow's Professional Knowledge Leaders within service orientated professions. The days of Class Rooms, Lecture Theatres, Halls of Residence, is long history. Our political philanthropists have marked theory and traditional learning for extinction ever since education became a burden to the States. Education Ministers throughout the world have experimented with various alternatives to replace the traditional orthodox methods but none have found a perfect solution. USA, Japan and Germany have been advocating the integration of the concept into theoretical learning from the outset, but the rest of the world has been extremely slow to adopt the model, but the third millennium enforces the implementation of the Professional Knowledge concept to resolve the unemployment predicament. Even before the use of Information Technology began to grow exponentially, Professional and knowledge qualifications were recognized and actively encouraged by the United States of America's Educational Scheme. Theory only learning has become an outdated methodology to acquire hands on qualifications in today's economic world, practical expertise is the priority of today's learning.

ECU's vision and objective were evolved along with two UK Institutions, the Corporation of Executives and Administrators (CEA) and UK Commission for Consistent Learning (UK-CCL). Therefore, UK-CCL is the main Trustee of ECU. This has permitted the Governing Board of ECU to empower UK-CCL Board of Governors to interconnect in all legal, management, and operational and financial matters. This has permitted ECU to have their International Administrative Office in Great Britain with UK-CCL. Arise and Connect with ECU for a Worthwhile Professional Knowledge Acknowledgement to earn a Work Orientated Professional Knowledge Special Certification!

The ECU wish to be known as the University of Professional Skills Accreditation (UPSA) who is dedicated to evaluating, validate and certify the professional skills of candidates gained through hands on work experience in any field of employment or experience. ECU's founders believe that the accreditation of their qualification must have the approval Employers and Business Organisations, as they will be the people can witness the strength of ECU graduates. The ECU has pioneered the move from traditional textbook and classroom education, into qualifications on what an individual candidate has achieved and what experience they have gained up until the point of approaching ECU for their individual recognition.

ECU's vision and objective were evolved along with two UK Institutions CEA and UK-CCL. Therefore, UK-CCL is the main Trustee of ECU. This has permitted the Governing Board of ECU to empower UK-CCL Board of Governors to interconnect in all legal, management and operational and financial matters. This has permitted ECU to have their International Administrative Office in Great Britain.

Affirmations & Approvals

The Board of Trustees and Governors of ECU seek the Affirmation, Approval and Acceptance of today's Employers, Business Organisations and Professionals. This statement of ECU makes clear their status to prospective candidates and others who are interested. How to confirm the quality of the qualification is relied upon the facilitation, assessment and verification methodology, which a university adheres to. Therefore, the United States of America did not make accreditation legally compulsory for Non-Campus Universities, which are incorporated in the USA. **Professional Vocational Knowledge Qualifications is an on-going Professional Development Learning Notion.**

ECU's Speciality

The ECU wishes to be accepted as an Open Distance Learning Professional Vocational Knowledge University who confer Entrepreneurial Knowledge Qualifications by taking into consideration the work experience of matured working individuals in any field of employment or business. ECU's awarding council believes that the accreditation of their Vocational Knowledge qualification must have the approval of Employers and Business Organisations, as they will be the people that can witness the strength of ECU's qualifications and their quality standards. The ECU is proud to state that they were one of the pioneer institutions who moved from traditional academic education, into Professional Vocational Knowledge Qualifications for matured working individuals.

QUALITY AND ACCREDITATION

The value and quality of ECU's qualifications has been recognized on an international scale and as such, various accreditation organisations have come forward to approve and promote ECU's notion. AAHEA is the individual membership organization that promotes research, collaboration, scholarship, best practices and evidence-based research to move together into the era of increasingly digitized professional education. ECU is one of the leaders in the transition from old norms to new professional standards for a new age. ECU's association equips individuals and institutions committed to such changes with the Vocational Knowledge they need to bring those changes about.

Professional Vocational Knowledge Qualifications are an ongoing learning concept, which is verified by UK-CCL to the quality standard to ISO 9001:2008. It has to be understood that, as long as the university is legitimately incorporated with the aim and objectives in their memorandum of article, it can operate with their specific award methodology. The ECU founders believe that it is a constitutional practice to implement Professional Quality Management Standards (PQMS) as a compulsory factor for all their assessment and verification. If you have the PQMS in place, the external accreditation is not important.

A Message from Previous Award Recipients

All recipients of ECU's Professional Knowledge Qualifications do confirm that, the certification, which is bestowed upon us, is legitimate as it is from **ECU of Delaware, USA. State Secretary of Delaware legitimately incorporated ECU as a Non-Domicile Distance Learning, Vocational Knowledge University.** We understood the requirement for Entrepreneurial Vocational Knowledge Qualifications especially through our Lifelong Hands on Work Learning. Add to that, the opportunity of Professional Personal Career Development that the award provided. We are proud and appreciate sincerely that, **Professor Emeritus Ralph Thomas**, who is the forward-thinking visionary of ECU created an institution to elevate matured working individuals in their professional careers through **Vocational Lifelong Knowledge Learning Qualifications.**

American Association for Higher Education and Accreditation (AAHEA)

The American Association for Higher Education and Accreditation (AAHEA) is the oldest institution in the United States of America that is dedicated to the advancement of higher education. Its roots trace back over 140 years to its formation in 1870 and since then it has been an important feature in the education field. The ECU has pioneered the move from traditional academic education, to basic qualifications on what an individual candidate has achieved and what experience they have gained until the point they approach us for recognition. Therefore, the AAHEA has accepted the ECU as a degree awarding institution and will continue their support of ECU. The AAHEA have further endorsed the ECU by agreeing to give membership to all ECU degree holders. The AAHEA mission statement goes hand in hand with the beliefs and values of ECU. The AAHEA recognition and acceptance is very vital for ECU, as they are one of the oldest accrediting non governmental private non profit institutions committed for quality certification.

American Association For Higher Education And Accreditation

Certificate of Membership

This is to Certify that
**European Continental University
of Delaware, USA**

Achieving Excellence in Education

The above named Educational Institution has obtained full membership and is entitled to all the privileges and obligations thereunto appertaining. Christopher A. Campbell

Christopher A. Campbell, CEO

United States Distance Learning Association

ECU's Board of Trustees has obtained very valuable membership from the United States Distance Learning Association to give further accreditation for their respective Entrepreneurial Awards. The US Distance Learning Association (USDLA) is an agency founded by US Federal Government organizations to bring together, distributive (online and distance agency) educators to further the development and promotion of highly effective online and distance learning education methodology. The United States Distance Learning Association was the first non-profit Distance Learning association in the United States to support Distance Learning research, development and practices across the complete arena of education training & communications.

California University FCE

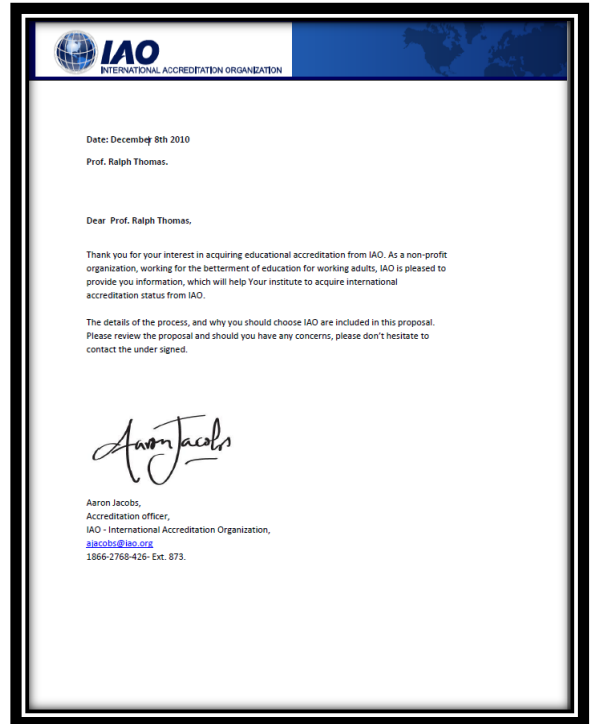

From the Academic Board of California University FCE, Dr. Luis Amorsolo, the President welcomes the European Continental University of Delaware, USA into the elite group of recognized universities worldwide. As a member of this group, your university shall have the following benefits and privileges:

- European Continental University will receive twenty percent (20%) discount on the Services & Fees published at CUFCE web site.
- Your graduates cannot deal directly with CUFCE unless you recommend them.
- All your graduates shall receive the equivalent academic degrees of the regionally and nationally accredited universities in the United States of America. These equivalent degrees shall be used for employment purposes only. It cannot be used as prerequisite for transfer of credits to any accredited universities in the USA.
- You may award all your graduates the California University FCE diploma with the General Report in addition to the ECU certificates or diplomas on their graduation day.
- You must provide us the list of graduating students, date of graduation and the title of their degrees one month ahead of their graduation day.

International Accreditation Organization (IAO)

The IAO is known and accepted as a global accreditation body based on recognition in the United States. They too, have a global presence and are present across continents. Therefore, it is another important step in accreditation by securing support from the International Accreditation Organization (IAO) to accept the awards of ECU. Through this network, they ensure an institution's commitment in delivering quality education, which is in line with the global standards. It ensures the institutes can debate that their degrees and credits will have increased acceptability around the world. After reviewing all of ECU's documentation, the IAO awarded the ECU Candidacy Status. This is one step below Full Accreditation, which is something ECU is striving to achieve.

**Never Blame Anyone in your life,
Good People Give You Happiness,
Bad People Give You Experience,
Worst People Will give You A Lesson,
Best People Give You Memories**

Professional Quality Vocational Knowledge **Entrepreneurship Degree Awards**

Master of Professional Entrepreneurship (MPE) **Doctor of Professional Entrepreneurship (DPE)**

Why seek out ECU Vocational Knowledge Qualifications? Because its core value is to give prominence to Lifelong Work Experience Learning which has earned adequate Vocational Knowledge. Being an Open Distance Learning Vocational Knowledge University, ECU avoids being an academic bureaucratic institution. ECU's vision is to be part of the next generation of learners, moving beyond artificially-imposed academic boundaries to a point where learning is recognised, rather than gaining awards based on what you can remember in an examination. ECU's Vocational Knowledge Orientated Professional Degrees are evidence of an individual's own achievement, rather than theory. The importance of ECU's Professional Vocational Knowledge Entrepreneurial Award is to give an edge to experienced executives over the inexperienced younger academic generation when going for jobs and promotions.

In today's realistic economic condition, although many have been in their respective employment for many years without problems, their progress is stagnated due to the fact of not holding an academic degree. At this juncture, the Executive Board of Governors emphasize these awards need to be earned by every individual, rather than simply awarded. Secondly, every candidate must meet the assessment, verification criteria as well as adhere to the procedures in place. In addition, they must attend several Oral Examinations to earn this Professional Vocational Knowledge Qualification. Keeping to this vision, ECU came up with the Entrepreneurship award as a valuable recognition and endorsement of the highest order to be known as the Master or Doctor of Professional Vocational Knowledge Entrepreneurship (PKE) award.

An Appropriate Accreditation Should Be Given To Professional Hands-on Lifelong Knowledge Learning!

A feasibility study has shown that Professional Entrepreneurial Vocational Knowledge Master or Doctorate is accepted internationally as a profound Vocational Knowledge Award for the individual who has gained the acceptance as an entrepreneur due to their contributions and achievements by way of success in a business, profession or employment. The Professional Vocational Knowledge Entrepreneurship (PKE) award ratifies life achievements and enriches recipients to a higher Professional Status. It is not merely an endorsement, but an appreciation for the individual who has contributed their entire working life to their respective profession not just for personal achievement, but also to benefit the whole society with many opportunities, such as economic growth, job openings, better facilities and a good atmosphere for people to work and live in. This unique award came about after vast evaluation and deliberation by the Executive Board of Governors and Trustees along with the University Convocation Council (UCC) and Governor General Lifetime Achievement Award Committee (GGLAAC) to offer this highest Professional Entrepreneurial Award with emphasis on the specialty of achievements by ECU from January 2014.

ECU is an investor in people and is dedicated to facilitating and promoting Work Experienced Individuals to gain an acceptable Professional Vocational Knowledge Entrepreneurial Master and Doctorate Degree Qualification to further enhance their career status.

Award Eligibility

To be eligible for the appropriate award such as for the Masters (MPE) Entrepreneurship, the applicant must have overall 15 years Work Experience out of which a minimum of 5 years must be as a Senior Executive. For the Doctorate (DPE) Entrepreneurship, the applicant must have overall 25 years Work Experience out of which a minimum of 10 years should be in the position of owning or heading a business as a Chair Person. It is made abundantly clear that the convocations will be held three times within a year in Asia, Middle East and Europe. All ECU awards must have the UK-CCL International Training Certification.

Assessment Policy

ECU has adopted a range of professional quality assessment assurance procedures designed to ensure that its practices meet high quality management standards and ECU's distinctive vision is sustained. To this effect ECU's Executive Governing Board has given the full authority and responsibilities to UK-CCL, who are dedicated themselves, as an institution specialized for Assessment and Verification. ECU as a Professional Vocational Knowledge University, believes that professional quality assurance is fundamentally important and by using an external establishment who will be responsible for maintaining and carrying out the professional quality assurance processes, this will assure the candidates of the value of the professional Vocational Knowledge qualification. This responsibility is exercised by ECU and UK-CCL through their nominated qualified representatives.

As you know, the value and importance of becoming approved by the world renowned International Standardization Organisation (ISO), this professional quality assurance system is recognised by an intergovernmental agreement between 148 different countries, and is based on the principles of stakeholder satisfaction and continual improvement through quality management systems. Many universities around the world have implemented the internationally recognised ISO 9001:2000 standard, and the ISO encourages institutions to adopt the standards in both self-certification and external audit processes. ECU is proud to nominate UK-CCL as their independent assessors, examiners and verifiers for all their awards. UK-CCL has this approval from the ISO with the

Standards and Guidelines of BS-EN-9001:2008 with certification number GB-14390. All the candidates are assessed under the following scheme of Affirmation for Prior Experience & Learning (APEL), which has been developed and implemented by UK-CCL. UK-Professional Body CEA's Eminent Certified Membership accompanies ECU's Awards. The ECU Founders make a plea to all licensed working individuals who do not have professional endorsement for their lifelong contribution to the economic world, to come forward and join hands with ECU in order to get them recognized through a worthy Professional Vocational Knowledge Qualification.

An Explicit Charter of International Entrepreneurial Excellence Certifications

Entrepreneurial Diamond of Asia (EDA)
Entrepreneurial Diamond of Middle East (EDME)
International Entrepreneurial Golden Excellence (IEGE)

Merits of the Certification of Competence Award

The Executive Board of Governing Council have grasped that, being the beacon for Professional Vocational Knowledge Quality Qualifications for Non-Academic Work Orientated Individuals Internationally, they feel that it would be wise to bestow a special and recognisable certification of endorsement for every Middle and Senior Management Individual to be known as a Successful Entrepreneur based on their work experience and performance. This is considered for any individual who has more than twelve years of Executive Managerial Exposure. It is a special and highly valuable recognition, known as **International Entrepreneurial Golden Excellence (IEGE)** and any individual who has more than Six Years of Managerial Exposure can be known as **Entrepreneurial Diamond of Asia (EDA)** or **Entrepreneurial Diamond of Middle East (EDME)**. These are special awards that can be bestowed upon any individual who meets the required entry requirements. This specific and individual certification improves the morality of the person and elevates them to the next level of professionalism. This level is known and accepted as Professional Vocational Knowledge Excellence Business Entrepreneur.

This highest accolade of Entrepreneurial Professional Vocational Knowledge Award is designed for any individual who has the appropriate work experience and either an employer, institution or organisation recommendation. It is not an academic honour to a person, but it is recognition bestowed on a person based on their contribution as an employee or someone who has devoutly enhanced the business environment or society's wellbeing.

The experts of ECU, along with UK-CCL, always focus on professional Vocational Knowledge quality, institutional integrity and administrative responsibility. In an age where specialisation and flexibility are essential, it is also considered when considering bestowing any recognition to an individual's intellectual contribution to the business society. Therefore, there is a need for Professional Entrepreneurial Vocational Knowledge Qualifications, which will help business enhancement and highlight working professionals for their responsibility and bring to light the comprehensive lifelong learning process. The rapid political, social and economic changes across the world have brought forward awareness of the increased demands for the reform of traditional education systems to meet the challenges of the next century of work experience. Thus, improving the access to more cost-effective quality Professional Vocational Knowledge Entrepreneurial Award.

This **Certification of Competence** is a special recognition conferred upon non-academic matured work experienced individuals to enhance recognition for their tireless contribution throughout their working life to be uplifted with a special Vocational Knowledge recognition award. **It is a legitimate endorsement because it is awarded by Vocational Lifelong Knowledge Learning University ECU of Delaware, USA.** In effect, a society or organization has stamped its approval for a new life to begin with this specific **International Entrepreneurial Golden Excellence (IEGE), Entrepreneurial Diamond of Asia (EDA) or Entrepreneurial Diamond of Middle East (EDME).**

This is an appreciation Certification to boost the non-academic working individuals to a professional level. This type of acknowledgment gives the privileges and crucial responsibilities to create a better society at this pivotal time. This accolade can be seen as a social and professional international recognition of quality, skill and community social work. It comes from within the individual and is revealed by way of their day to day actions. It radiates from his/her character with his/her every word and deed. Furthermore, this specific highest award of **International Entrepreneurial Golden Excellence (IEGE) or Entrepreneurial Diamond of Asia (EDA) or Entrepreneurial Diamond of Middle East (EDME)** will permit the individual for Personal Career Development (PCD) to gain an uplifting recognition among their fellow business associates and friends and family.

The Structure of Assessment is as follows: -

- a) Submission of a detailed CV Synopsis of professional history and key achievements.
- b) Certified Photocopies of Educational, Professional and Vocational Certification.
- c) Certified Photocopies of Recommendation, Gratification and Appreciation letters.
- d) Three Personal Recommendation Letters confirming suitability for ECU's Professional Vocational Knowledge Award.
- e) One passport size colour photograph.
- f) Completed Application Form with Admission fee (non-refundable) as stipulated in terms.
- g) Must be available for minimum of three Verbal Viva Consultations.

Nominated UK-CCL representatives in their respective local country carry out the assessment and verification. The scheme that is executed will either be Accreditation for Career Progress Development (ACPD) or Affirmation for Prior Experience & Learning (APEL). This then will allow the applicant to earn the credits and to transfer under Credit Accumulation Transfer Scheme (CATS) for the appropriate ECU Professional Vocational Knowledge Award.

A Note to be considered by everyone!

- **The Road to Career Success is not straight, but there are many curves to achieve the Goal.**
- **A curve called Failure;**
- **A loop called Confusion;**
- **Speed bumps called Friends;**
- **Red lights called Enemies;**
- **Caution lights called Family;**
- **Flats called Jobs.**

But if you have the Determination; an engine called Perseverance; Insurance called Confidence and YOU as the Driver, you will make it to a place called Success.

UK Entrepreneurial Professional Knowledge Membership

Consortium of Entrepreneurial Administrators

The **Consortium of Entrepreneurial Administrators (CEA)** is a UK Professional Vocational Knowledge Awarding Institution who is committed to conferring **Distinguished Professional Entrepreneurial Vocational Knowledge Membership**. They do so by taking into consideration an Individuals Lifelong Hands on Work Learning and Professional Career Development as their fundamental requirement for their awards. This awarding concept came forth from 1981 formed UK Professional Awarding Body, The Corporation of Executives and Administrators (CEA) and 1996 formed Assessors & Verifiers, UK-CCL. Both are "Quasi Charity" Non-Profit Institutions. UK-CCL facilitates in accordance to the Professional Quality Management Standards of ISO 9001: 2008. It is made very clear to every person concerned that the Consortium Of Entrepreneurial Administrators (CEA) only confer Entrepreneurial Non-Academic Professional Learning Vocational Knowledge Distinguished and Eminent Memberships.

Entrepreneurial Sample Master & Doctorate Certificates

European Continental University

Work Oriented Professional Knowledge University of USA

The European Continental University (ECU) was incorporated and licensed as a Non Governmental and Non Profit Corporation by virtue of the authority granted by the Secretary of State of Delaware, USA on the 31st day of May 2005, with the registration No. 0254641 and the Secretary of State of Delaware's authentication number 3914155 as an International and Non Academic Independent Professional Knowledge Work Oriented University. ECU's formation came about by the Corporation of Executives & Administrators, which is a UK Accredited Professional Body incorporated in the United Kingdom in the year of 1981 with the registration number 1586873 and obtaining the APOSTILLE License Certificate to confirm the Legal Incorporation under the Convention de La Haye du 5 Octobre 1961 on the 14th of August, 2008 with the registration number 0361281.

ECU's Awards are Assessed and Verified by the UK founded Independent Organisation known as a catalyst for Professional Quality Management Standard, the UK-Commission for Consistent Learning, with the Certification to the Standard of ISO 9001:2008 with the authentication reference of BS-EN-ISO-9001:2008.

Conclusive Thoughts

Professor Emeritus Ralph Thomas (Freeman of London and England & Wales, Fellow of the Royal Society of Arts, Full Member of Institute of Hospitality, Fellow of Institute of Cost & Executive Accountants, Juror of the Court Baron of the Mayor- City of London, Outstanding Persons, Researchers and Professors of AEI, Belgium, Colonel of the State of Kentucky (USA) and "CALL TO SERVICE" from the President of USA) wishes to emphasize his vision, mission and objective for today's business community and employers, by bringing to their attention the Professional Vocational Knowledge Hands on Learning Qualifications. ECU Professional Vocational Knowledge Awards have given many opportunities for non-academic individuals to get promoted within their working profession. Perhaps the most notable advantage with an ECU Professional Vocational Knowledge Award is the flexibility in which you can achieve your expected goal. Many matured licensed work experienced individuals who are looking for a pathway to achieve recognition from a reputable awarding institution, come to ECU. So all in all, if your career matters to you, then ECU should matter to you, as ECU offers unparalleled recognition in the form of a Professional Vocational Knowledge Degrees and Professional Eminent Memberships with Equivalency Certification. The main aim and objective of ECU is to bring out the entrepreneurial spirit from within each candidate and boost their professional status.

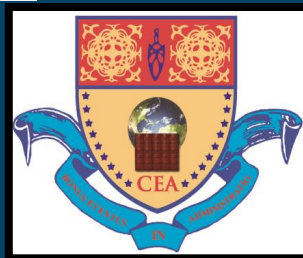

ECU's Open Blended Learning Professional Knowledge Qualifications are Known and Accepted Internationally as a Worthy, Valuable, Recognizable, Profound Work Knowledge Award!
